

NORTHCOTE

20
22

The images of Northcote in 2022 were collected over the winter period, right here in Northcote's town centre. People who live, work or visit Northcote were invited to have their portraits taken by photographer Jinki Cambroneró.

From preschoolers to grandparents, baristas to politicians, we heard about people's connections to this neighbourhood, their love for the local library, and their dreams for the future of the town centre. Look at all the diverse faces of Northcote across these signs, and see if you spot anyone familiar!

As the Northcote community grows, we can look back on this snapshot to see what the community looked like in the winter of 2022. If we do the same thing in 5 years, or even 10, what changes do you think we'll find?

This archive was prepared and preserved by Eke Panuku Development Auckland on behalf of Auckland Council. As Northcote evolves, sharing memories from the people of a time is a way of retaining our connection to the past. It allows us to foster an appreciation and deeper understanding of how the urban environment has changed over the years and reminds us that change is always happening.

Look familiar? The images on these signs were taken in the winter of 2022 and capture Northcote in the midst of construction, preservation and change.

5 or 10 years from now these images will look very different. From new homes, to public space makeovers, to a 1.5km greenway connecting it all. While lots of exciting changes are coming, we'll still be able to recognise this town centre as the beating heart of the Northcote community.

To find out more about all the good things coming to Northcote central head to ekepanuku.co.nz/northcote.
